

Boris Kirov

Product Designer

My name is Boris Kirov. I'm a Bulgarian designer living in Amsterdam, The Netherlands. I use technology to express myself and I'm currently contributing to the Observability in Elastic. In my spare time, I enjoy exploring technology and building tools to empower others to build and progress. My passion for constant experimentation in the realm of design and experience keeps my busy and always hungry. Feel free to browse at www.boriskirov.me/playground.

EXPERIENCE

Senior Product Designer

Mar 2022 - Present • Amsterdam, The Netherlands

Design and experience leader with focus on Observability. I often move between teams, and that allowed me to build a reputation for vision-setting, working fast, collaborate effectively and adapt to changing needs. Often spreading my influence and experience from early pitches to late stage releases. My projects expand in a cross-solution way across the organisation, which expects work and collaboration with leadership, and C-level executives.

Platform Product Designer

May 2020 - Mar 2022 • Amsterdam, The Netherlands

Leading design for the Miro Platform public launch. Main design collaborator with product teams in order to deliver high-end technical and experience production ready solution for 20+ million users.

Product Designer

Feb 2019 - May 2020 • Amsterdam, The Netherlands

INFO is a business innovation partner, as I designer there I was responsible for the digital transformation for one of their biggest and most important clients Graydon.

Experience & Digital Producer

Aug 2016 - Dec 2018 • Sofia, Bulgaria / London, UK
